

# Let's explore gravity-defying innovations

Boeing has won the US Air Force Next Generation Air Dominance (NGAD) competition and will produce the world's first sixth generation fighter jet at our facility in St. Louis. This program adds to the rich legacy of defense products that includes F-15, F/A-18, T-7, and MQ-25.

We are seeking enthusiastic and motivated entry-level engineers to contribute to the success of all these programs.
